Manta Fish

Ask and Earn platform
powered by AI

EduDao 2023 Hackathon
built by Zeng from THUBA
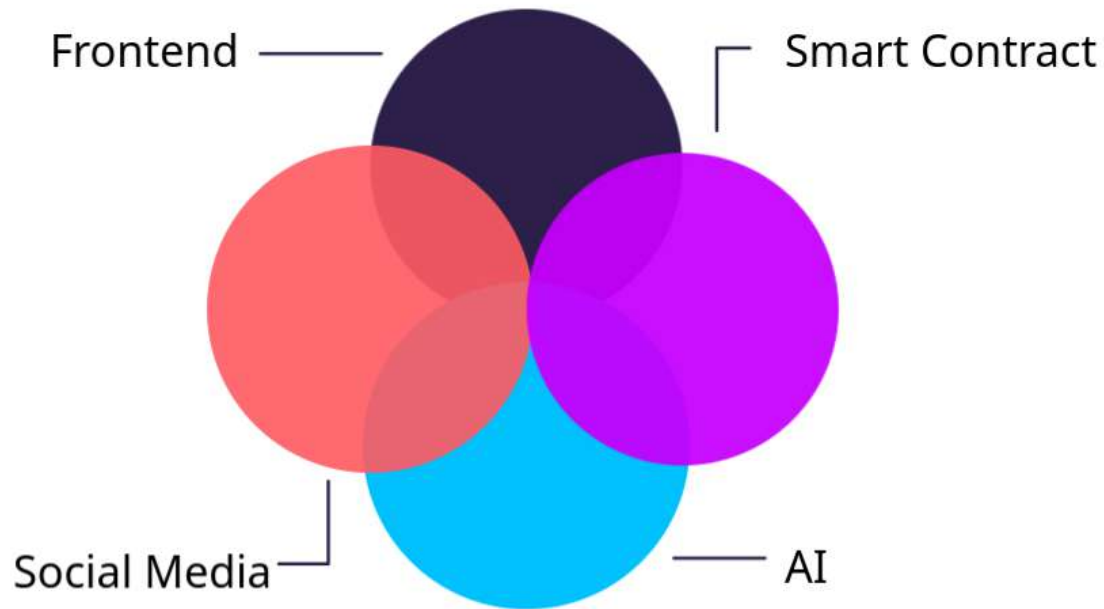

EduDAO

MANTLE

What is Manta Fish?

1. A on-boarding platform to let new comers learn about Mantle Network
2. Powered by AI
3. Let user stand a chance to win $BIT token when asking questions

Key components

Frontend —
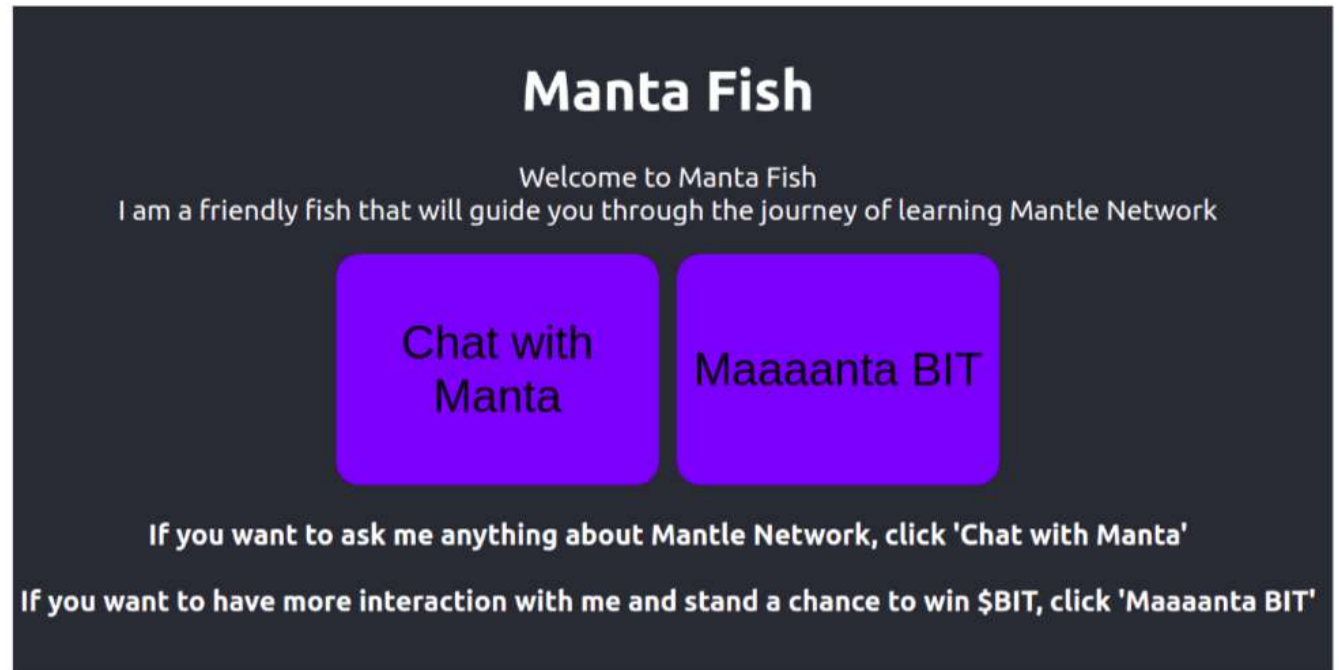

Smart Contract

Social Media

AI

1. Frontend: Built on Reactjs
2. Smart Contract: Written by Solidity, incl. AskAndEarn, NFT, BIT token contracts.
3. AI: LLM AI tool developed by Mendable AI
4. Social Media: Tweet option

How it works?

Two mode

1. Ask only
2. Ask and Earn

Manta Fish

Welcome to Manta Fish
I am a friendly fish that will guide you through the journey of learning Mantle Network

Chat with Manta

Maaaanta BIT

If you want to ask me anything about Mantle Network, click 'Chat with Manta'

If you want to have more interaction with me and stand a chance to win $BIT, click 'Maaaanta BIT'

Ask and Earn

1. Player deposits 10 $BIT on Mantle Network.
2. First time player get minted a Manta NFT!
3. Player ask questions to Manta.
4. Lucky draw will get announced by Manta Fish and winner get $100 BIT!

Don't be afraid to ask stupid questions!

Manta Fish learn from Mantle Network official documentation using LLM (Large Language Model), developed by Mendable AI, providing you with the best result within seconds!
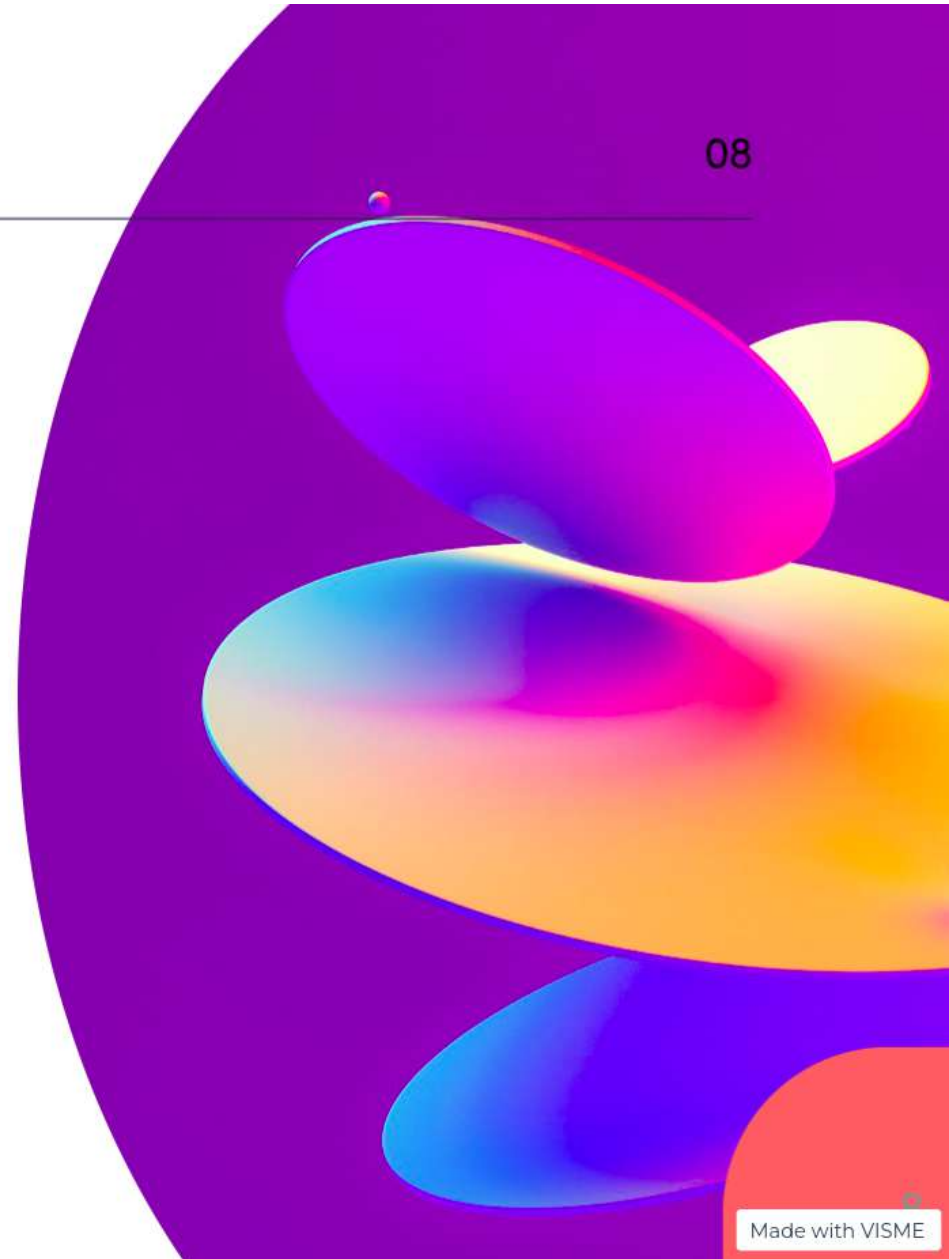

Demo

Thank You!
